The clergymen who formerly declared to their congregations that "we are standing on the brink of eternity" had an occasional accident in the hay fields or at logging bees to remind listeners that they were telling them a fearful truth. The modern clergyman may add: "Read tomorrow's papers if you have any doubts."

Weary Listener.
"You can't answer my arguments," triumphantly exclaimed the man of aggressive loquacity. "No," replied the sarcastic person; "I haven't a chance. I can't stay awake long enough."

Odious, Ain't It?
Bing—The way these colleges scatter around their degree is absolutely nauseating. Every Tom, Dick and Harry with a little cheap notoriety can figure on getting one. The whole system is absolutely indefensible. Don't you think so? Bang—Yes. I didn't get one, either.—Cleveland Plain Dealer.

HELPLESS AS BABY

Down in Mind Unable to Work,
and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

Protecting Telegraph Poles.

To protect telegraph poles from rotting in the ground a new French practice is to surround their ends with earthenware pipes and fill the pipes with melted resin and sand, which solidifies and becomes waterproof.
